! IMPORTANT

EN Make sure there are no objects under the struts. This helps the tent close properly.

FR Assurez-vous qu'il n'y a aucun objet sous les amortisseurs. Cela facilite la fermeture de la tente de toit.

DE Achten Sie darauf, dass sich keine Gegenstände unter den Gasdruckdämpfern befinden. Dies erleichtert das Schließen des Zeltes.

ES Asegúrese de que no haya objetos debajo de los amortecedores. Esto facilita el cierre de la tienda.

PT Certifique-se de que não há objetos debaixo dos amortecedores. Isto facilita o fecho da tenda.

EN Keep the zippers on the side doors closed halfway to make it easier to close the tent.

FR Laissez les fermetures éclair des ouvertures latérales légèrement ouvertes jusqu'à mi-hauteur pour faciliter la fermeture de la tente de toit.

DE Halten Sie die Reißverschlüsse der Seitentüren bis zur Hälfte geschlossen, um das Schließen des Zeltes zu erleichtern.

ES Mantenga los cierres de las puertas laterales cerrados hasta la mitad para facilitar el cierre de la tienda.

PT Mantenha os zíperes das portas laterais fechados até metade para facilitar o fecho da tenda.

EN After closing, ensure all latches are secure and no fabric is outside. Do not exceed 100 km/h with the tent mounted.

FR Après avoir fermé la tente, vérifiez si le système de fermeture est bien fixé et sans toile visible de l'extérieur. Ne dépassez pas les 100 km/h avec la tente installée.

DE Prüfen Sie, ob alle Verschlüsse sicher sind und kein Stoff außen ist. Fahren Sie nicht schneller als 100 km/h mit montiertem Zelt.

ES Al cerrar, compruebe que todo esté bien cerrado y sin tela por fuera. No supere los 100 km/h con la tienda instalada.

PT Depois de fechar, confirme que todos os fechos estão bem fechados e que não há tecido no exterior. Não ultrapasse os 100 km/h com a tenda instalada.

CROSSBARS

⚠ CROSSBARS - LOAD WEIGHT

LOAD WEIGHT	
REAR OF THE TENT	FRONT OF THE TENT
0KG (0 lbs)	50KG (110 lbs)
5KG (11 lbs)	40KG (88 lbs)
10KG (22 lbs)	30KG (66 lbs)
15KG (33 lbs)	20KG (44 lbs)

- EN** The tent supports up to 50kg (100 lbs) of additional load on the crossbars when open and closed. To ensure easier opening, it is essential that the load is properly positioned and distributed, with the heaviest part at the front and the lightest at the rear, respecting the correct weight distribution.
- FR** Lorsque la tente est ouverte et fermée, les barres transversales supportent jusqu'à 50 kg de charge supplémentaire. Afin de faciliter l'ouverture de la tente de toit, il est essentiel que la charge soit bien positionnée et répartie, avec la partie la plus lourde à l'avant et la plus légère à l'arrière, en veillant à une répartition adéquate du poids.
- DE** Das Zelt kann bis zu 50 kg zusätzliche Last auf den Querstreben tragen, wenn es geöffnet und geschlossen ist. Um das Öffnen zu erleichtern, ist es entscheidend, dass die Last richtig positioniert und verteilt wird, wobei der schwerste Teil vorne und der leichteste Teil hinten ist, unter Beachtung der richtigen Gewichtsverteilung.
- ES** La tienda soporta hasta 50 kg de carga adicional en las barras transversales cuando está abierta y cerrada. Para asegurar una apertura más fácil, es fundamental que la carga esté correctamente posicionada y distribuida, con la parte más pesada al frente y la más ligera en la parte trasera, respetando la distribución adecuada de los pesos.
- PT** A tenda suporta até 50 kg de carga adicional nas barras transversais quando está aberta e fechada. Para garantir uma abertura mais fácil, é fundamental que a carga seja corretamente posicionada e distribuída, com a parte mais pesada à frente e a mais leve na traseira, respeitando a distribuição adequada dos pesos.

INSTALLATION

MINIMUM BAR WIDTH

DISTANCE OF 2 BARS

DISTANCE OF 3 BARS

EN When using two bars, the central distance between them should be between 90 and 120 cm (35.4-47"). The distance from the rear of the tent to the first bar should be between 60 and 65 cm (24-26").

FR Si vous utilisez deux barres de toit, l'espacement des barres doit être de 90 à 120cm. La distance entre l'arrière de la tente et la première barre doit être comprise entre 60 et 65 cm.

DE Wenn zwei Stangen verwendet werden, sollte der Abstand zwischen ihren Mittelpunkten zwischen 90 und 120 cm liegen. Der Abstand vom hinteren Ende des Zeltes bis zur ersten Stange sollte zwischen 60 und 65 cm betragen.

ES Cuando se utilicen dos barras, la distancia central entre ellas debe estar entre 90 y 120 cm. La distancia desde la parte trasera de la tienda hasta la primera barra debe ser de entre 60 y 65 cm.

PT Quando utilizar 2 barras, a distância central entre elas deve ser entre 90 e 120 cm. A distância entre a parte traseira da tenda até à primeira barra, deve ser entre 60-65cm.

EN For frequent off-road use or additional cargo, we recommend 3 bars or a rack. On paved roads without extra cargo, 2 bars are sufficient. Always follow the vehicle's load capacity specifications.

FR Pour une utilisation fréquente en tout-terrain ou avec une charge supplémentaire, nous recommandons 3 barres ou un rack. Sur routes pavées sans charge additionnelle, 2 barres suffisent. Suivez toujours les spécifications de charge du véhicule.

DE Für häufigen Offroad-Einsatz oder zusätzliche Last empfehlen wir 3 Querträger oder einen Dachträger. Auf asphaltierten Straßen ohne zusätzliche Last reichen 2 Querträger aus. Beachten Sie stets die Spezifikationen der Fahrzeuglast.

ES Para uso frecuente en off-road o con carga adicional, recomendamos 3 barras o una baca. En carreteras pavimentadas sin carga extra, 2 barras son suficientes. Siga siempre las especificaciones de carga del vehículo.

PT Para uso frequente em off-road ou com carga adicional, recomendamos 3 barras ou um rack. Em estradas pavimentadas sem carga extra, 2 barras são suficientes. Siga sempre as especificações de carga do veículo.
