⚠ IMPORTANT

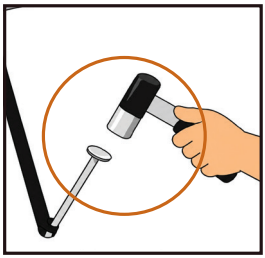

EN **Always set up the Awning at an angle to drain water and prevent pooling that could cause irreparable damage.**

FR Installez l'auvent incliné pour évacuer l'eau et éviter toute accumulation causant des dommages irréparables.

DE Stellen Sie die Markise geneigt auf, damit Wasser abfließt und keine Ansammlungen irreparable Schäden verursachen.

ES Instale el toldo con inclinación adecuada para evacuar el agua y evitar acumulaciones que causen daños irreparables.

PT Monte o toldo com inclinação adequada para escoar a água e evitar acumulações que causem danos irreparáveis.

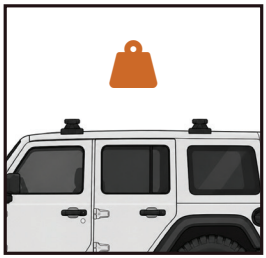

EN **Secure the Awning with pegs and ropes in appropriate weather to prevent wind damage to it or the vehicle.**

FR Fixez l'auvent avec piquets et cordes par temps approprié pour éviter les dommages du vent à l'auvent ou au véhicule.

DE Sichern Sie die Markise bei geeignetem Wetter mit Heringen und Seilen gegen Windschäden an Markise oder Auto.

ES Asegure el toldo con piquetas y cuerdas cuando proceda para evitar daños por viento al toldo o vehículo.

PT Fixe o toldo com estacas e cordas quando adequado para evitar danos do vento no toldo ou veículo.

EN **Do not exceed the mounting bar's maximum load capacity when installing an Awning.**

FR Ne dépassez pas la capacité de charge maximale de la barre de fixation lors de l'installation de l'auvent.

DE Überschreiten Sie bei der Montage der Markise nicht die maximale Tragfähigkeit der Befestigungsstange.

ES No supere la capacidad máxima de carga de la barra de fijación al instalar el toldo.

PT Não exceda a capacidade máxima de carga da barra de fixação ao instalar o toldo.
